

Naval Architecture and Ocean Engineering

# Seminar

## Fatigue of ship structures

by

**Prof. Janusz Kozak**

**Gdansk University of Technology**

Wednesday, 25<sup>th</sup> January 2023

Time: 16:30h- 18:00h

Location: Anf. QA1.3 (South Tower)

**Prof. Janusz Kozak**

Professor of Faculty of Mechanical Engineering and Ship Technology,  
Gdansk University of Technology, Poland.

Research area: fatigue of structure, new structural materials especially  
laser welded steel sandwich panels, ship manufacturing processes in this  
metrology, destructive & non-destructive tests of the steel construction.  
Numerical modelling of elastic material behavior.
