7th International Conference on Renewable Energies Offshore

The scope of the Conference is broad, covering all aspects of the renewable energies offshore activities including:

- Resource assessment
- Wind Energy
- Wave Energy
- Tidal Energy
- Ocean Energy Devices
- Multiuse Platforms
- PTO design
- Grid connection
- Economic assessment
- Materials and structural design
- Installation planning
- Maintenance planning

Special Sessions

Proposals will be accepted for organizers of Special Sessions on topics to be agreed with the organization.

The official language of the event will be English.

Location of the Event

Due to the actual restrictions imposed by the evolution of the Pandemic, the Conference will be held in a Hybrid solution (onsite and online) with a component in presence, placed at the Congress Centre on IST campus in Lisbon and also a remote component to allow participants that cannot travel, to participate remotely in the Conference.
